Big Frog Custom T-Shirts opened the doors to its first franchise location in November, 2008. Big Frog is not a typical screen printing company.

Using the latest technology in Direct to Garment (DTG) printing, Big Frog Custom T-Shirts unique process gives consumers the ability to work with a graphic designer at no additional charge, to custom create their own design with unlimited color options, no minimum order size and no set up fees. Some items can be designed and printed while you wait and larger orders are ready within a 24 hour turnaround!

The image is crisp and maintains its color saturation even after multiple washers. There is no fading, peeling or cracking because unlike screen printing that traditionally use ink and paint, the Big Frog process uses a water based dye. The results are incomparable. Without the need for harsh chemicals, it is the most environmentally conscious process to date.

BIG FROG Custom T-Shirts is perfect for corporate events, family reunions, teams, schools, friends or even just get one for yourself! Everybody has something to say, so say it on a BIG FROG t-shirt.

(Editors Note We are indebted to **GAIL DAILY**, our breakfast meeting speaker last week, February 3, for providing the above summary of her remarks.)
