

LPS Mission Statement

The Loganville Primary School Parent Teacher Organization is a partnership which serves to advance communication and understanding between parents and the school. The mission of this Parent Teacher Organization is to enhance the education of our children by promoting the connection between home, school, and the community. The goals of this organization include creating opportunities for community building and raising funds for academic and enrichment programs, as well as for other school needs. We invite and encourage all Loganville Primary School parents and staff to join and participate in the PTO.
