

Troop 188 Eagle Scout Leadership Project Procedures

Only 4% of all Scouts attain the rank of Eagle Scout. Troop 188 has exceeded that percentage over the last several years. In order to continue providing the best support and assistance, Troop 188 has adopted the following procedures for Life Scouts interested in completing their Eagle Scout Rank advancement.

1. Life Scouts **must** have completed at least 1 **service project** prior to starting to plan an Eagle Scout Leadership project. The service project must be approved by the Scoutmaster and the Patrol Leaders Council before it is started.
2. Life Scouts **MUST** meet with Mr. Bill West, Troop Eagle Scout Advisor, **BEFORE ANY** work is done toward the Eagle project. He can be reached by telephone at (515) 964-1255 or via email at eagle1968@aol.com. Mr. West will provide the following to each scout:
 - a. A copy of the T188 Service Project Plan form.
 - b. Guidance on the scope of the service project to be conducted.
 - c. Guidance in writing the Project Plan before formal review.
 - d. Guidance in completing the Eagle Scout Leadership Project Plan book prior to the Eagle Scout Board of Review.
 - e. A meeting with the scout and his parents to explain the procedures for selecting an Eagle project and the level of parent involvement.
 - f. A meeting to address other Eagle Scout requirements outside of the Leadership project.
3. Life Scouts will wear their Class A uniform to all meetings relating to Eagle Rank advancement including meetings for the Leadership project.
4. Once the planning section of the project plan has been approved by Mr. West, the Troop Advancement Chair will be contacted to arrange an Eagle Scout Project Board of Review.
