

Bible Story Dominos

Help your child's Bible knowledge with this game that requires players to match Bible story pictures. No reading required.

Directions:

Shuffle/mix up dominos and place them all face down on the table in one pile.

For a two player game, each player should draw 4 dominos at random, for a game with more players; each player should draw 3 dominos. Do not let the other players see your dominos.

The youngest player should go first by laying any domino on the table. In the typical game you'd lay a double (one with the same image in both squares, but I find it a tough rule to explain to the little ones and usually results in my having to look at their cards).

Player two tries to lay a domino on the table with an image that matches either end of the domino. If the player cannot go, they pick a domino from the pile and miss their turn. The next player may try to match the first domino image or try to match the end of the second domino image. Only one domino may be played per turn. Should the last domino be drawn with no play possible, the player passes and tries again on his/her next turn.

Play continues until one player has used all his dominos or until no one can play. The player with no dominos or with the least number of remaining dominos wins.
