

Lacing Heart Door/Window Craft

Materials:

yarn or ribbon
single hole punch
scissors
card stock

Directions:

1. Print out templates on white or colored card stock.
2. Cut out the templates.
3. Put hearts back to back with words showing outward. Allow the students to make holes around the heart using a single hole punch near the edge (about an inch or two apart).
4. Provide the students with a length of yarn or ribbon. (You can wrap some scotch tape around the end of the yarn/ribbon to make it more like a shoe lace.)
5. Start at the center of the heart on the top or the bottom and have the students lace the yarn through the holes. Be sure to leave enough yarn or ribbon on the end so you can tie it off into a bow.
6. Tie off yarn/ribbon in the center with a bow.
7. Let the students use glitter, markers, crayons, paint, stickers, etc. to further decorate their completed project.
8. Hang craft on a door with a window so you can see both sides or just hang in a window.

The peace of
the Lord be
with you always.

And with
your spirit.
