

Directions: The objective of the game is to collect 10 plague cards by answering questions about each plague. Place your marker on the START square. The player rolls the die and moves that many spaces on the board. If the player lands on a space with directions on it, they must follow them. If the player lands on a plague space, the teacher asks them a question from the list about one of the plagues that the person does not have a plague card of. If the player is correct, they collect the corresponding plague card that the question was about (the players place their plague cards face up in front of them so the teacher knows what kind of plague question to ask). If the player is not correct, they do not collect a card. Players must collect a plague card for each plague as they move around the board. Note that the board is set up so you can move around it many times. The first player to collect all 10 plague cards, wins. Continue playing to find out who comes in second, third, fourth, etc. place.
