## 2006-2007 Annual Report

The Rim Rock Chapter has been going strong all year. We started with 26 members, lost 2, gained 7 and ended with 31 members. **A pretty successful year!**

One of the major focuses for our chapter this year was host for the 2007 CWM Division Meeting in Cody, WY. With Glenda Brown CPS/CAP living in Cody, she was the natural pick for Chair of the committee. We have 10 members representing our chapter in attendance at this event and all will be helping somewhere throughout the weekend to make it a great success. Many will be attending a Division meeting for the first time and I know it will be an experience they will use to further their positions in our chapter and the organization.

APD was another success story for our chapter. Ninety people attended our third annual "Manage to Laugh" all day seminar. With the support of many local companies we were able to bring in two well know speakers. Frank Kuntz with his vaudeville style presentation took over the morning and Rebecca Pace had the attendees in stitches all afternoon. No one left without a smile on their faces. Next year will be just as enlightening with Suzie Humphrey's.

Other chapter committees have had success stories as well. The Community Service Committee took on the task of gathering items for the schools. It was so heart warming to read the thank you letters from the three schools that were provided with a basket of not just the normal pencils, papers, and crayons, but also socks, gloves, sweats, t-shirts and other items. The schools said it is amazing the number of children that arrive at school without the basic items to keep them warm. Our chapter will be expanding this project for the coming year.

Our Certification Committee took on the task of a study group. Several members attended; three took the exam in November and one in May. Two members were successful in attaining their CAP designations and we are all crossing our fingers till around June 21<sup>st</sup> on the third. We have at least 4 more interested in the exam for November. A total of 10 members now have the CPS or CAP rating – 1/3 of our membership.

Our Newsletter and Website Committees were very successful in getting information out to the members all year long. Updates were added to the website continually and the format of the newsletter was changed to give it a new look and make the information easier for the reader to find and read. We are all anxious to see how we did in the Division competition this year.

The Chapters success couldn't have been accomplished without exceptional programs all year long. We learned about PDA/Blackberries, Website Maintenance, City Public Safety Issues, Nutritional Balance, Photo Editing and Presentation, Public Speaking, Office Environments and will finish up with Customer Service. Members also took time for a Fun Night in December and made a Christmas craft item. The committee even had people calling them to give presentations so now has three lined up for the next year. That's a good start for the new committee!

As president, I can only say our success is due to the great members of our chapter and their willingness to get involved.

Darlene Chamberlain CAP  
2006-2007 President, Rim Rock Chapter
