

Dragonfly Doula!

“Dragonflies are reminders that we are light and can reflect the light in powerful ways if we choose to do so. “Let there be light” is the divine prompting to use the creative imagination as a force within your life. They help you to see through your illusions and allow your own light to shine in a new vision.”

I am a 27-year-old married mother of a 2.5-year-old boy and expecting a girl in November 2009.

I became interested in becoming a doula after my positive birth experience with a doula in Minneapolis (where our son was born). We were able to have a waterbirth in a hospital after a long labor and our doula provided unwavering support and confidence and nurtured both my husband and I throughout the birth process.

I believe that every woman deserves a doula no matter her family or financial situation. Rich, middle-class, poor, single, married, adoption, etc.-you and yours don't have to go it alone! I'd love to be your familiar face, voice and hands during your birth.

Give me a call or email if you'd like to interview me to see if I'd be the right fit as your doula!
