

STREETLIGHTS PROBLEMS

Dear Southampton @ Salem Springs residents:

Here is the information to report any issues with the streetlights in our community. If you are having problems with a streetlight near you, then you should send an email to:

domassist@relayelectric.com

Please be sure to get all the numbers on the specific pole, put them in the email, state they are at Southampton and these are the numbers for the light, and what the problem is with the light.

Of course, you may contact me and I will submit your service request...however, I will need the pole numbers also.

Debbie Burks
