## THEME: Take Flight

[courage; health and fitness]

Air has the power to push and pull objects so that they can fly. This month learn all about air and why it is needed to fly. Learn about gravity. Make your own flying machines and learn about the Wright brothers. Figure out which types of paper airplanes fly farther, higher, faster, and longer, and why. Study birds and their flyways. Take a trip to the airport or a science museum. Earn the science belt loop and pin.

## THEME: Spring Into Action

[positive attitude; citizenship]

Spring into action with outdoor activities such as hikes; sports and games; cleaning up litter along ponds, parks, or roadsides; or planting trees for improved habitat. Visit and talk with someone who works with wildlife conservation and visit a fish hatchery or wildlife sanctuary. Build birdhouses, birdbaths, feeding stations, or boxes for nesting materials. This would be a good month to work on the wildlife conservation belt loop and pin.
