

Why I Am Proud To Be A Cub Scout

I am proud to be a Cub Scout
Learning what it's all about
Listening to the message deep within
Wanting to grow and knowing how to begin

Values is what it's about
That's how we can grow and sprout

Citizenship enables contribution
Of service to the community as a solution
Showing responsibility
Enlightens our nobility

Compassion is the fashion
For kindness and consideration

Cooperation and being helpful as such
Working together as a team in touch

Courage through bravery and doing what's right
Through thick and thin – that is our might

Faith in God through inner strength
Confidence based to any length

Health and Fitness all about
Personally committed to shout it out
Keeping our minds and bodies clean and fit
Pretty darn keen you'd have to admit.

Honesty is truth and being worthy of trust
A good Cub Scout is one such just

Perseverance allows you to go get what you want
Sticking to it and not quitting that's what you've got

A **Positive Attitude** is when difficulty might show
Being cheerful, keeping hopes up is what will make you glow

Resourcefulness is where I know I can find
Anything I need to when I'm in a bind
Using people for information that I need
Knowing just how to ask so that I may succeed

Respect in all things living or dead
Shows true worth in your abilities in all that lie ahead

Responsibility is greater than you'll ever know
Fulfilling our duty to God and helping us grow
Throughout the world no matter where we might land
It is our requirement in all that is planned

I am proud to be a Cub Scout
No matter how big or how small
There is nothing that I doubt
That will ever make me fall

I need to **know**
How to grow

I need to **commit**
Even if I have to submit

I need to **practice** alas
That will bring me to the head of the class

I am proud to be a Cub Scout
As proud as I can be

My uniform all in place
Shows my gentle grace
Pride in the definition
Through eager ambition

I have my place amongst all of you
A Cub Scout here and today through and through
