

# Renton History Museum presents Smithsonian Institution's

## KEY INGREDIENTS

America by Food

## March 21 - May 9

**Grand Opening Saturday, March 21, 10:00 a.m. to 7:00 p.m.**

*The only Seattle-area showing of this exciting exhibit.*

*Ever wonder what exactly are pierogies, potice, or polenta? Can you imagine a time when Italian food was exotic and new?*

We eat food every day without giving a second thought to where it came from and why we eat it. Key Ingredients: America by Food explores the connections between Americans and the food we grow, cook, preserve, eat, and celebrate with. Using unique objects, photographs, and illustration, Key Ingredients lays out 500 years of food history across the country. The Renton History Museum's own exhibit, Sustaining A City, explains how Renton's unique culinary traditions fit into the larger national picture.

- Trivia contests for adults and children running weekly.
- Group tours available by appointment.
- Spring speaker series at Carco Theatre.
