

TO ALL GRAND PRIX BOWLERS

Each of you have earned scholarship money. This money is placed in your account, under your social security number, and is added to annually when you earn points in the program. The more money that is earned by fundraising and the more state events that you participate in accounts for how much you will earn.

This program was established to help you earn money to further your education upon graduation from high school. Funds may be used for learning a trade, attending a vocational school or a two or four year college program.

Funds accrue as long as **you remain in the program.** Please be aware, that if you **drop the program or quit, your funds are placed in a drop fund and re-distributed to the children remaining in the program.**

If you have to drop the program for health reasons please supply us with a doctor's slip indicating that you can not continue and when you can return. This will protect your funds as they will be frozen at their current amount. If you move and there is not a participating center in your area, we also will freeze the account upon notification. It is not necessary, if you have outside activities, to bowl the entire season but you must notify the center or your coach what part of the season you will be active in. You may just bowl in the spring session if you cannot make arrangements to participate during the school year. You **do have to notify the center or coach** of your plans so we in the office do not think you have dropped or quit.

The more events you bowl in and the more times you bowl in house of course will earn you more points. You must remember if you only participate on a part time basis your account will not grow as rapidly.

We want you to have a great time bowling. It is the **ONLY SPORT** that will allow you to earn money for your future education purposes. Your parents will see a portion of the money they pay out returned to you.

Please remember to "Thank" your center and coaches for giving you this opportunity and also "Thank" your parents for making the effort to allow you to have this privilege. Sometime in the future you will enjoy the rewards!!
