Old Business:
- Milfoil update. Some residents have reported Milfoil. This has been checked into and has been determined that it’s either calcified (harmless) or not milfoil (native species). The lake will be inspected again in the spring.

New Business:
- Mike Ales proposed having a picnic at the conclusion of the annual meeting (Memorial Day week end). Possibly having a ski show with local residents and maybe an exhibition ski team at the same time. Also a Venetian night boat parade. If this were to occur, extended wake hours were discussed in order to accommodate the event.
- Mike reported there were some residence concerns regarding the condition of the dam. Mike has inspected the area and reports that it all appears to be in very good condition.

Individual Commissioners Comments:
The recent property assessment was discussed. Any member with questions or concerns regarding the assessments or the proposed Wild Rose firehouse project should contact Dan Nowak (see roaster).

Individual Members Comments
None.
Motion Hiss/Schmidt to adjourn. Carried
Respectfully Submitted
